**Attachments:** Air monitoring summary 121119 v2.docx; Surface Water Summary 121119 v2.docx

I've attached updated summaries. Surface water message is subject to change—we are waiting for TCEQ to send an updated list on the values they'd like us to use. Thanks.

Hi, Chelsea,

Please remove the PFAS reference to the surface water sampling. This analysis has been dropped until further notice. All other analytical parameters remain the same.

Also, we spoke with OSC Adam Adams about the air monitoring field data we are now collecting on-site (**butadiene specific** monitoring) when necessary as opposed to the butadiene calculated values (butadiene equivalent 1,3). Please adjust the air monitoring text blurb accordingly.

Thanks,

**David Cook**
